Categories: Green Category

Hi Scott,

As per your request for a CRN extension for:

CRN: 0C12238.54
Manufacturer: ASCO Valve Inc.
Expires: April 30, 2018

Our jurisdiction (Manitoba) has accepted your request and have granted extension until **September 30, 2018**. Please accept this email as proof of extension for these fittings.

Regards,

Ryan Orlesky C.E.T.

Importance: High

To Whom it may Concern:

ASCO Valve, Inc. has CRN base number 0C12239.5 (and addendums) registered initially through TSSA (Ontario) and then with your Provincial jurisdictions.

We are in process with TSSA on a renewal, however, the subject CRN is expiring at the end of this month, April 30 2018 and given the status of our request with TSSA , the registration will expire before renewal completion especially considering all Provinces post TSSA completion.

TSSA has granted ASCO an extension till July 30th 2018 (see attached letter).

I request an extension for your Provincial jurisdiction as well, so all can tend to all that is needed while assuring our customers continuity for not only Ontario , but for the other Provincial jurisdictions. Given the fact that TSSA needs to complete this first and the lead-times involved, please consider granting an extension beyond the TSSA July 30th date. Please consider September 30th 2018.

Please note that we have an Addendum 10 that may be in process with your jurisdiction through TSSA (or may have recently been completed, such as ABSA). ADD 10 is just adding ASCO's ISO 9001 certified Shanghai China factory. This location is already in the renewal package.

Dear SCOTT SCHIPPER,

Thank you for your design submission, which was received on March 06, 2018. Please be sure to include your assigned Service Request Technical Standards and Safety Authority (TSSA) regarding this submission.

Service Request No.: 2257364(ONT), 2257366(NAT)
Service Requested: BPV-Fitting Registration
Client Job Reference:
Main Design No.: SEE SCOPE OF REGISTRATION-PDS-CRN-008 (17PAGES) - RENEWAL OF CRN# 0C12239.5
Service Level Requested: Rush

Design Review Engineer: Wen Du wdu@tssa.org

Estimated engineering services turnaround times:

Standard Service
All submissions: 3 to 4 weeks, depending on the number of submissions received for processing.
Some may require more time due to unusual circumstances and complexity.

National Registration: 10 to 12 weeks, depending on the response time from other jurisdictions.

Rush Service 10 working days. This service is available only in Ontario.

Should you have any questions or require further assistance, please contact a Customer Service Advisor at 1.877.682.TSSA (8772) or customerservices@tssa.org. We will be happy to assist you.

Yours truly,

Cecylia Garbacz
